

Brief Project Description

2014 SWRTPO Human Services Transportation Plan Update

DUE to CWCOCG October 23, 2014

Please list your project information in the table below so it can be included in the HSTP. Two examples are provided from the previous plan. Need should be listed as either “preserve” or “expand.” Type should be listed as either “operating” or “capital.” Descriptions should be limited to a few short sentences. Please contact Matt Buchanan if you have questions at mbuchanan@cwccog.org, or call 306-577-3041.

Provider	Project Title	Need	Type	Description
Cowlitz Tribe	Cowlitz Tribal Transit Service—Rural Demand-response	Preserve	Operating	Cowlitz Tribal Transit Service serves the general public as well as tribal members in the rural areas to bring them to the urban areas for medical sustaining appointments. They also do shopping trips, meetings and other needs that fit within the service area and project.
Grays Harbor Transit Authority	Purchase Mobile Data Units and Related Software and Hardware for Door-to-Door Demand-response Vehicles	Expand	Capital	Installing mobile data units in our paratransit fleet will increase safety and security through GPS tracking. Mobile data units will enable dispatcher’s to monitor the location of each paratransit bus in real time which will increase efficiency, reduce non-revenue hours and dead-head miles. All of the above features will result in an overall cost saving for providing paratransit bus service throughout Grays Harbor County.
Quinault Indian Nation	Rez Racer Tribal Transit Service—Expanded Services Project	Expand	Operating	Provide safe, reliable, and friendly transportation to customers for shuttle service from Taholah to Pacific Beach. The system will link to Grays Harbor Transit in order to bring customers to the urban areas for medical sustaining appointments, as well as shopping trips, meetings and other needs.
